**IMPLEMENTATION**

**INTENT**

In the first year of the GCSE course, we follow the Viva AQA textbook and focus on the topics of holidays, school life, free time activities and their local area. We revisit and embed the grammatical constructions covered at KS3 and pupils’ grammatical understanding is developed to enable them to use more complex constructions. The four skill areas (listening, reading, speaking and writing) are practised in lessons and pupils are equipped to use their language effectively to deal with the requirements of the GCSE course, e.g. translation, extended writing, general conversation, describing a photo, and listening and reading for detail.
